

ACQUIRED BRAIN INJURY SEMINAR

Thursday 17th May 2012, 2-4pm

in the Auditorium at McGregor House, 10 Donaldson Crescent, Kirkintilloch, G66 1XF

Key Speaker: Prof Tom McMillan
Professor of Clinical Neuropsychology
Institute of Health and Wellbeing
College of Medical, Veterinary and Life Sciences

- How to identify this hidden disability
- Clinical effects
- The prevalence of brain injury
- Discrimination

This Seminar will also include input from those who have been affected by an acquired brain injury

WHO IS IT FOR?

This seminar is **FREE** but booking is essential. It will be of interest to; those directly affected by an acquired brain injury, carers, the public, those working in Health, Social Work and Voluntary Sector Organisations. At the end of the Seminar, refreshments will be served and there will be an opportunity to look at the Information Stands from organisations who support people with brain injury.
